

## **Medical Office Specialist**

### **Mission Statement**

The mission of the Medical Office Specialist program is to enable students to obtain in-depth employability skills in the most current classroom and hands-on office support situations. Students will utilize current technology to develop new skills and attributes required for successful entry into the medical office field. Students are encouraged to further their education and improve their employability by becoming lifelong learners. The program will continually assess student outcomes and community needs to identify and implement methods and strategies to achieve its mission more effectively.

### **Educational Goals**

The Medical Office Specialist program at Southwestern Illinois College will graduate students who can:

- Read, write, and speak effectively using business/medical terminology.
- Develop the necessary keyboarding skills to properly create and format medical documents.
- Demonstrate competence in implementing the computer skills required in the creation of word processing documents, spreadsheets, databases, presentations, and email, as well as be able to use the Internet to locate specific medical information.
- Display professional behaviors complimentary to the profession through sound ethical decision making.
- Locate and utilize resources to promote continued learning.
