HUMANS OF STL
(and SWIC)

Margaret Keller

The Space Between series is an installation of paintings that look at nature and question how to see nature, both visually and conceptually, now the virtual world and its companion imagery have become more real than reality for so many.

Featured image: *Ice Blue (detail)*

Terri Shay

An exhibition that embraces lighter subjects and palettes, childish melodies, and sometimes the absurd. The artistic process adapts to the changing and mercurial seasons, botanical harmonies, and cycles.

Featured image: *Untitled (detail)*

Humans of STL

This exhibition, in line with "Humans of" projects, will display portrait photographs of faculty, staff, and students from SWIC as well as community members from the Metro East and St. Louis. Along with their photographs will be the individuals' stories meant for viewers to connect to their fellow humans and evoke compassion for their lived experiences.
