**Foster Grandparents**

**Share Today. Shape Tomorrow.**

*“Be the person you needed when you were younger”*

Children benefit immensely from the presence of a Foster Grandparent in their classroom. Because of the social and emotional support they provide, individual and academic goals become within reach for children at risk. Ms. Johnson of Katie Wright Elementary in East St. Louis writes about her Foster Grandparent: *“Our Foster Grandparent worked with students who had challenges adapting to classroom expectations as well as those who fell behind academically. She had the task of pulling a few students to give additional help with a lesson and even one on one time for extra help at their level. Two of the students she was working with went from knowing little to no alphabet to knowing them all by March! One of the male students with behavior challenges was very easily calmed when she talked to him because of the relationship they built.”* Want to learn more and think you can “Be the person you needed when you were younger”?
