

The Illinois Green Economy Network (IGEN) is a consortium of Illinois community colleges working together to share resources, common experiences and best practices to help grow the new green economy.

The Smart Energy Design Assistance Center (SEDAC) is partnering with IGEN to offer five Energy Code workshops at Illinois community colleges. Building construction professionals, code officials, engineers, architects, instructors, and students are invited to attend and can receive continuing education credits from the Association of Energy Engineers, (AEE), the American Institute of Architects (AIA) and the International Code Council (ICC). All workshops will address the following topic:

## **Top 40 Energy Code Requirements You Should Know: 2018 IECC**

Does energy code compliance sometimes feel overwhelming? Attend our workshops for a focused discussion of the 2018 IECC commercial and residential requirements you need to know. To register, click on the workshop location.

**OCT 30**  
2019

### **Southwestern Illinois College \***

\* This workshop is a combined Energy Code/Accessibility Code workshop. There will be morning session (9 am-noon) that consists of a 2018 Illinois Accessibility Code Seminar by CDB. [Click here](#) to register for the morning session of the workshop. For more information on Accessibility Code Seminar please visit [CDB's website](#).

SEDAC is an ICC Preferred Education Provider and an AIA Continuing Education Provider.

Funding for this program has been provided in whole or in part by the Illinois EPA Office of Energy

SEDAC offers energy code training through in-person workshops for community code officials, construction professionals and trades, and design professionals such as architects and engineers in Illinois. Participants receive training about residential and commercial building energy codes, exchange information, and identify critical issues that affect code compliance.
